***Re: In re Camp Lejeune – Expert Reliance Materials – Dr. Kyle Longley***

Counsel,

This letter is both an amendment to PLG's deficiency response letter dated January 16, 2025, and a supplement to Dr. Kyle Longley's reliance materials for his January 13, 2025 rebuttal report.

As you know, Dr. Longley issued two reports; his initial expert historian report dated December 7, 2024; and his rebuttal report dated January 13, 2025 (which addressed the report by Defendant's expert historian Dr. Brigham).

PLG provided a reliance list with 198 items for his December 7, 2024 report and a second reliance list with 36 items for his January 13, 2025 rebuttal report. PLG has also produced information and materials listed in those reliance lists such as the "water babies" video footage. (See Item 154 on first reliance list, BATES CL\_PLG-EXPERT\_LONGLEY\_0000000009 - 10).

Over the weekend, Dr. Longley did locate some notes from his call with Allan Howard dated August 30, 2024, which amends item 127 on the reliance list for the December 7, 2024 report. In that regard, item 127 in Table 1 that was sent on January 16, 2025 is hereby amended and attached to this letter as Amended Tab 1. (See CL\_PLG-EXPERT\_LONGLEY\_0000000014).

Also being produced are Dr. Longley's call notes from conversations with Mike Partain and Jerry Ensminger dated January 7, 2025, and an email to Dr. Longley dated January 14, 2025, previously listed as items 2 and 3 in the reliance list for Dr. Longley's January 13, 2025 rebuttal report. (See CL\_PLG-EXPERT\_LONGLEY\_0000000011 – 13 and CL\_PLG-EXPERT\_LONGLEY\_0000000015 -16).

The aforementioned files have been uploaded to the Parties' shared CL - Plaintiffs' Productions folder on JEFS.

Respectfully,  
Bell Legal Group

112	U.S. Marine Corps, Black Marines Reference Collection, 5958, A/33/K/3/3 Box 3 of 6.	<p><u>Deficiency</u>: Not produced, unable to identify source.</p> <p><u>Solution</u>: The author states that John Lyles, head of the reference center, can provide more information as these are readily available vis-à-vis the finding aid and in the archives themselves. Further, it is noted that the sentence that this cited reference is supporting states: "It was a period of challenges and unrest on bases including Camp Lejeune, as race riots swept the base in July 1969, reflecting divisions in society boiling over during that historical period." For that we suggest the following substitute cites if accessing the primary document proves too difficult: <i>E.g.</i>, see Wikipedia entry: "The Camp Lejeune incident refers to the outbreak of hostilities between black and white enlisted Marines at an NCO Club near the United States Marine Corps' Camp Lejeune in North Carolina, on the evening of July 20, 1969. It left a total of 15 Marines injured, and one, Corporal Edward E. Blankston, dead. It was subsequently investigated by the military and led to widespread changes in military race relations and policy." 124	U.S. Marine Corps, "United States Marine Guidebook of Essential Subjects," U.S. Marine Corps Institute, 1983.	<p><u>Deficiency</u>: Not produced, unable to locate in public domain.</p> <p><u>Solution</u>: The citation was to support the following text: "A Marine manual emphasized something similar: 'A program of regular, vigorous and progressive physical training results in an increase in work efficiency, self-confidence, and personal as well as unit pride.' The manual argued that cardiovascular training, with a focus on stamina for 'prolonged activity of a moderate tempo,' combined with strength work to manipulate, at the minimum, the weight of the individual ensured longer lives and the 'ability to march long distances with heavy loads or to work long hours and still maintain the reserve to carry on in an emergency.'" To the extent the 1983 document is not available, the facts can be corroborated by oral historians e.g. Ensminger and Partain. The book is available at Amazon with a cover as follows:</p>
